Ex-Govornor Holden was nominated for Governor. Col. Heaton gets the nomination for Congress from the Newbern district. Mr. Hedrick, of Orage county, offered a resolution, that no person shall receive from the convention a nomination on the State ticket who is disfranchised from holding office, either by the reconstruction acts of Congress, or by the 14th article of the Constitution of the United States, known as the Howard amendment. It allows a homestead worth \$2,000, and personal property worth \$1,000 in specie, both to be valued at the time they are set apart, and instructs the Legislature to provide for the set-ting apart and valuation of the same. A motion to adjourn sine die on the 7th of March was lost, A recolution that mechanics and laborers shall have a lien upon the property of employers for labor and material prevailed. Heavy Forgeries in Camden, N. J. From the Philadelphia Inquirer, Feb. 24. William Hannah, of Camden, N. J., the son of an ex postmaster, was arrested on Saturday, at the wharf, on his return home, charged with the forgery of innumerable bonds, mortgages, notes, checks, stock certificates, &c , amounting in value to some \$100,000 to \$150,000. In committing this series of crimes he simulated the names of some of the most prominent citizens, as well of Camden as of the State. He has been employing himself in this wise for some ten or 12 years, but has hitherto escaped discovery. The principal sufferer and leading victim was Henry Allen, Esq., President of the Camden Water Works. Mr. Allen, a very wealthy man, was in the habit of discounting notes, and advancing money on collateral. The relations of the two were of the most intimate character. Mrs. Allen was in a dying condition when Hannah came to the house with a note, which Mr. Allen immediately discounted, sending down stairs for his tin box, which contained his securities. This box was subsequently ab-

stracted by Hannah on leaving the house. Mrs. Allen is since dead. The affair has created the greatest excitement in Camden, similar to that made by the Dr. Eldridge forgeries, some years since, in this city, in which all the banks were victimized. Among the names thus nefariously made use of were William H. Gatzmer, President of the Camden and Amboy Railroad; A. W. Markley, John Cain, Joseph J. Reed, John Cooper, A. B. Fra-zer, William P. Tatem, ex-sheriff; George W. Carpenter, Charles Wilson, ex-sheriff; Bingham & McKean, lumber merchants; Graham Clark, James Elwell, Jesse Johnson, S. B. Cann

and others. The forgeries on this side of the river will reach about \$100,000; on the other side, so far as known, some \$50,000. We append the assumed sums as set down by our informants: W. H. Gatzmer, \$50,000; C. Wilson: \$1,500; W. P. Tatem, \$2,500; G. W. Carpenter, \$3,500, C. S. Garrett, \$4,000; — Kean, \$3,000; James Elwell, \$1,800; Alfred Hugg, Attorney-at-Law, \$7,000, --- Kupture, about \$8,000; Theodore A. Zim-merman, \$350; and Brighaus & McKeau, \$4,400. The accused waived a preliminary hearing, and is now confined in Camden jail. An exsmination will take place on Tuesday next, when further facts may be elicited. The prisoner declines to receive visitors, even refusing to see his brother, who came on at once from Washington.

A CHICAGO DIVORCE-A Double Set of Wives and Children .- In the Circuit Court, at Chicago, on Monday, John and Catherine Spellman were divorced, as the result of the following somewhat singular occurrences and circumstances: Thirty years ago Spellman married the plaintiff in Ireland, where they lived a number of years in happiness, three children being added to their family. Spellman then concluded to seek his fortune in America. whither he came about twenty years ago. His wife heard nothing from him; and his children. having grown to manhood, determined to see if their tather was still alive. Coming to this country, they began a search which ended in his discovery at Freeport, Illinois, in the possession of a considerable of this world's goods. This was an agreeable surprise to the children; but their joy was considerably damped when they learned that another wife and other children calling Mr. Spellman "husband" and "father," stood where they and their mother should stand. Mr. Spellman agreed to return to his first love, and went to see his wife, who was in Philadelphia. She forgave him, on condition that he would cling to her. He agreed to do so; but after a few weeks the love he bore Mrs. Spellman No. 5 conquered his duty to Mrs. Spellman No. 1, and he again deserted her. This was more than she could bear. Following him to Chicago she sued for and obtained a divorce and consolation beside to the amount of \$5,000.

A SUPPOSED DEAD WOMAN COMES TO LIFE. A singular affair occurred in the "West End," New Albany, a few days ago. It seems an elderly lady living in that part of the city has been sick for some months past, and a few days ago she fell into a stupor and was supposed to have died. Her husband believing she had passed from this world began to make the usual preparations for her funeral, and with that end in view went up town and purchased the material to make the shroud. Upon his return home with his purchase, he was astonished and hor-rified to find his wife, whom he had left for dead, not only alive, but sitting propped up in bed, looking better than she had for some months. As a matter of course he was agreeably surprised, and lost no time in putting the linen he had bought for his wife's shroud in some secret hiding place, to prevent her being reminded of the fact that he had been in such haste to dispose of her body.

Horse-Eating .- M. Geoffrey St. Hillaire and other distinguished hippophagists in France have written an affectionate letter to their borse-eating friends in England, offering congratulations upon the results of the new dietary movement in that country. These gentlemen claim that it is "absurd to lose, each menth, throughout England, millions of pounds of meat admittedly wholesome and nourishing, when at the same time throughout England there are millions of human beings who stand in need of meat." In Paris the number of shops for the sale of horse-flesh has increased to twenty-three, and the price per pound is considerably below that asked for

A KIND PARTING WORD. - The London Standard thus mentions Mr. C. F. Adams on the eve of his return to this country : If Mr. Adams is going back to America, he takes our good wishes with him. Amidst the crowd of empty talkers, emptier thinkers, would-be statesmen, and half-bred politicians, who seem now to be having it all their own way in North and South, Mr. Adams will stand pre-eminent facile princeps, by virtue not only of his birth and superior culture, but by his advantage in all the qualities which make men. rightfully rulers over their fellows.

THE JURY OF THE FUTURE CALIFORNIA .-Light is to be let into the jury box in California. A bill has been introduced into the legislature of that state amending the Criminal Practice act, so far as to prevent the previous reading of a newspaper from disqualifying a man from serving as a juror. This disqualification was founded upon the idea that the reading of a newspaper report would bias the mind. At this rate the best jurors would be those who could not read at all—in other words, the most ignorant persons in the community. This idea is now exploded in California.

17 The Springfield Republican says: "The Irish in this city and neighborhood, as well as in many other sections, have worked themselves into quite an emigration fever, and are leaving for California in large numbers. Several tamilies have already gone from Spring-field, and others are making ready. They find times dull and work scarce hereabouts, and hope for better things on the Pacific side of the continent."

The Georgetown (Mass.) liquor agent was sued in the Superior Court for refusing to sell gin to a man afflicted with the asthma, and having entered a demurrer, the case was taken to the Supreme Court, which decides that "no action can be maintained against a town agent for refusing to sell liquor under any circum-

meeting has been held, being composed of the opponents of vaccination, and designed to protest against compulsory vaccination. The meeting declared that they prefer the risk of small-pox to the risk of the more loathsome maladies that, in their opinion, vaccination fre quently superinduces.
